## Ice Cream

### Simply Delicious Ice Cream

#### Ingredients:

- 1 half gallon Snowville Creamery Half & Half;
- 2 c. white granulated sugar

#### Equipment:

- Ice Cream maker (electronic or manual);
- 1 bowl;
- 1 mixing spoon;
- measuring cup

1. In a large bowl, combined Half & Half with sugar. Stir well until granulated sugar is dissolved. (If using an electric mixer, about 1 -2 minutes on low speed.)
2. Pour mixture into ice cream maker. Follow the instructions provided with your maker. Ice cream will usually solidify after about 20-30 minutes of agitation. For a firmer consistency, transfer ice cream to an airtight container and store in freezer for 2 or more hours.
3. **Enjoy your Ice Cream!**
